and that they would also be looking at ways of implementing energy efficiency procedures. And if you are aware of anything that they plan to do in the...in there specifically, you can certainly comment on that. And if not that's all right.

SENATOR BURLING: Well, I know that from living in the area that they're constantly talking and advertising efficiency, encouraging their customers to be more efficient at all times, and looking for ways to balance new ways...

SENATOR CUDABACK: Time.

SENATOR BURLING: ...of energy with the environmental concerns.

SENATOR PREISTER: Thank you.

SENATOR CUDABACK: Thank you, Senator Preister. Senator Coordsen, on the advancement of LB 461.

SENATOR COORDSEN: Thank you, Mr. President, and members of the body. I rise only briefly to support the advancement of LB 461 to E & R Final. LB 461, in addition to the clean air standards, also does some good things in the field of scrap tire recycling and use that I think will be a benefit to the state in the out years. Thank you.

SENATOR CUDABACK: Thank you, Senator Coordsen. Senator Janssen, on the advancement, followed by Senators Bromm and Preister.

SENATOR JANSSEN: Thank you, Senator Cudaback. Senator Preister, can we carry on a little conversation here? I'm sure you want to ask me a few questions because I do have a power plant in my district that generates and uses coal as one of their main sources of energy.

SENATOR CUDABACK: Senator Preister, would you respond?

SENATOR PREISTER: Yes, I would.

SENATOR JANSSEN: No, you ask me the questions, all right. That
